

17th International Conference on INnovations in Intelligent SysTems and Applications (INISTA 2023)

September 20-23, 2023, Hammamet, Tunisia
<https://conferences.sigappfr.org/inista2023/>

The International Conference on INnovations in Intelligent SysTems and Applications (INISTA) has been organized since 2005. It aims to bring together researchers from the entire spectrum of the multi-disciplinary fields of intelligent systems and to establish effective means of communication between them. In particular, it focuses on all aspects of intelligent systems and the related applications from the points of view of both theory and practice. Apart from the main track, it includes workshops, tutorials, special sessions, and plenary talks by invited speakers.

SUBMISSIONS

All paper submissions for INISTA 2023 will be via EasyChair at

<https://easychair.org/my/conference?conf=inista2023>

TOPICS

A list of non-exhaustive topics can be found at:

<https://conferences.sigappfr.org/inista2023/call-for-papers/>

INISTA 2023 will also include tutorials and special tracks sessions on current topics of interest to the community.

GUIDELINES

Papers must be prepared using IEEE templates for conference proceedings. Papers have a maximum page limit of 6 pages including references and graphs. INISTA will offer the option to buy a limited number of extra pages for submission (there will be a charge of 100 euros per extra page). The official language for the conference is English. Less than satisfactory English usage may form the sole basis for rejection of a paper and omission of any such final paper version from the conference proceedings. Authors whose native language is not English are encouraged to check their papers for proper English spelling and grammar using tools such as English grammar checkers available with most word processing application software. Alternatively, proofreading support from a native English-speaking colleague or technical editor may suffice. Some authors may be interested in the paid service available at the following link: <http://www.prof-editing.com/ieee/> (pending) for the final version of the paper.
